## *Joy fucks a Veteran on a trail*

*Hello and let me introduce myself as my name is Joy Ruth as I am a five feet eleven inches tall teenage transsexual and I am a very classy lady. The reason that I say that I am a classy lady is because when I am sucking on someone's cock and when that person with a cock cums in my mouth I complete the job by swallowing all of the wonderful tasting cum down making whomever I giving a blow job like it. That is what a classy lady does is complete the job by swallowing all of the cum. I weigh 155 pounds and I am a well-tanned and a horny little transsexual with an hourglass figure. I wear a C cup bra size for my tits and when I get aroused my erect nipples get hard like my cock. I have long length chestnut brown hair with brown eyes. I have brown finger and toe nails as I have a five and one half inch thick hard cock that spews cum out in globs that I totally love to eat it all when I have an orgasm. I have golden earrings in my ears along with golden nipple rings in the nipples in my tits that has been used to put a small rope through because sometimes I love being tied up since I am kinky and a very big fan of bondage especially if I'm blind folded I am tied up there is sex involved. I totally love having the orgasmic elations when I start to cum as my balls tighten as my the head of my cock goes numb my balls tighten my stomach muscles tighten as I grunt and I spew my own warm creamy load of cum shoots out of the tip my pee hole with all of those wonderful sexual elations shooting throughout my entire body. I not only love the feeling when I am Cumming but I also totally love to eat my own cum too which is cool and the taste so very good as it is like eating the icing on the cake that is what it reminds me of. Eating your own cum is good for you as it is full of protein and vitamins is why I eat my own cum. I also am a stripper as a part time job just to keep the bills paid with my late night job as a transsexual stripper and the only one I know around where I live. I work in a night club called "The October Club." I am also working part time at an adult novelty store as is my day job were I get to meet the nicest people . The most of the people think that I'm a female and little do they don't know that I'm a very sexy transsexual with a hard cock and balls*

I can really appreciate it if gentlemen that will let me suck their hard cocks with them finding out after they shoot there load of cum in my mouth that I am a Transsexual or maybe if they want to they can give me a really good ass fucking with their hard cocks in my very tight rear anal pussy. If you have never tried anal sex you should but do like I did. Insert small toys in my ass and work your way to a bigger toy or cock and make sure you are clean and use plenty of lube. There is no better feeling on earth than someone pushing their hard cock into my well lubed asshole as they slowly push their meat deep into my anus with it stretching the inside my tunnel of love while their cock makes me feel so super wonderful as they fill me up with their big meaty cock. I love being fucked in my ass as it stimulates my anal nerves as their cock drive me crazy with it sliding in and out of my well lubricated anal walls as I love to be fucked there in my ass. There are billions of nerves endings inside your anus that crave to be fucked with a hard cock as they make my ass fucking feel so really good making my cum as I shoot off my own load in globs of cum. My ass not only craves to be fucked but it aches for a big hard cock deep inside of my spinster muscles to in which I can really tighten up the muscles in my anal walls around their hard cocks as I am milking their hard cock and balls dry of their wads of cum deep inside of my awaiting bowels. I love to get on top of a hard cock deep in my anal cavity as I fuck him up and down letting my ass go forward and back fucking  my as. I also love to take his cock deep inside of me as I go around in circles as it feels so wonderful to both the inside of me and it makes his cock feel really good too. My name was Jay as I never really knew who my parents were because I am an orphan who was a little boy who was supposed to be a little boy girl that lived in an orphanage most of my life with me getting my education from having sex the male working staff of the orphanage as he worked the late night shift.  I loved giving him blow jobs every night as he taught me about sex in the bathroom late at night in the as he worked there most of the time during the night. I really enjoyed sucking on his juicy meaty hard cock in my mouth every night in the bathroom with the head of his warm and tasty cock in my mouth with me sucking and pumping his hard shaft with my fist. I loved it when his salty pre cum as it oozed out of the pee hole of his hard cock and in my mouth with me licking his balls and up and down on his hard shaft as the blood veins were bulging out of it. As a child I was in heaven as so was he as it was a naughty nightly thing for me to pleasure his cock when he was working? I loved sucking his cock as I would lick and suck playing with him as he would shoot his warm loads of cum in my awaiting mouth as I would swallow it all down. I would lick up and down both sides of his rock hard cock while grasping his cock tightly with my fist at the base and taking his warm cock into my awaiting mouth as I savored the salty taste of it. I continued sucking and pumping his hard cock with my fist tightly as I*

*would circle sucking on the head of his hard cock until his breathing and heart was pumping faster and faster with my fist. I would circle suck on the head of his cock with my mouth capped around the head of it until his balls tightened as he grunted out loud while his cock would twitch in my mouth. He would grunt out shooting his warm loads of that creamy cum down my throat as I drank it all down and swallowed it all. I loved it as I would swallow all of his cum all down while using my sandpapered tongue underneath the tip of the head of his pee hole with my tongue flicking from side to side while I would fondle his balls. I totally enjoyed the taste of his cum as I was drinking his hairy warm creamy loads of cum every night. I was getting more than my fair share of fun and pleasure swallowing his salty sticky white warm wonderful tasting creamy nightly loads of cum that is filled with all of that vitamins and protein that is really good for you. When he finished dumping his load in my mouth I would go to the shower stall naked sit down on a bench and jerk my own cock off with me eating some of my own really good protein. Back when I was a little girl boy I played with GI Joe and Barbie dolls as a child dressing up in some of the girls there let me borrow their panties that lived there and wearing girls shoes and dresses with the little girls in the orphanage. Sometimes at night while sleeping in my bed late at night at the orphanage after everyone else was asleep I would lay on top of the bed naked jerking my own hard cock off so I would eat my own very tasty cum. If you haven't eaten your own cum you should try it because it really taste very good and it is full of protein. Now that I have grown older I changed my name from Jay to Joy Aspen Ruth as I am one really hot and horny chick with a dick. Sometimes I love to go camping with some friends and I have a good time partying and playing spin the bottle after we finish drinking the liquor in it. I try to practice safe sex with a condom but when they do cum they grunt out loud as I move my mouth around on the head of their twitching hard cocks while using my tongue to dance underneath the tip of their cock. While they are Cumming in my mouth it drives them crazy with an orgasmic elation in their cocks and I get a big kick out of eating their warm cum. As they moan grunt and sometimes they giggle or laugh out loud when they are Cumming in my mouth as it feels so good draining their cocks dry of their cum swallowing it all down until their cocks get soft.*

*I was wearing my cut off blue jean shorts with a lavender haunter top my black laced panties and bra underneath them with my tennis shoes my socks. I picked up my small back pack which had a bottled water and a snack and my cell phone as I walked out of my kitchen door locking it behind me as I got in my SUV and headed toward the mountains while listening to some really good national public radio music.*

*It took me a short little trip driving on the mountain two lane highway until I arrived at the state park where I parked and locked up my SUV in*

*the shade as I grabbed my back pack locked my car up and headed on a trail up the mountains. I guess that I had hiked for about thirty minutes as I needed to pee so I put my back pack down then unsnapped my short shorts pulled my cock out and started peeing on a tree in the forest. After I finished I put my cock back in my panties then snapped my shorts back up and zipped up the zipper and I started to walk when someone said "Hey, How is your hammer hanging honey?" I was a bit frightened as this man I would guess was in his sixty's with binoculars was walking toward me near some pine trees as he was wearing military camouflaged shirt pants boots and a straw hat. I said to the man "I didn't mean to offend you sir or anyone else," as he said was smiling and was saying to me "I've heard of you Tran's women, she males, Lady Boys or whatever you call yourself. I had a lady boy myself in Vietnam but have never met one here in the states until now. I liked her whole lot. How are you doing today Sweetie?" Then he said to me, "Do not to be frightened and that his name was Sam." I said to him "It's so nice to meet you Sam, My name is Joy." Sam said "It was all his pleasure watching me pees and he asked me to sit down so we could talk." We both sat down on a large tree trunk that was lying down on the grassy area that has fallen down in the shade because he wanted to converse with me for a while. He was about six foot tall 200 pounds with broad shoulders sandy gray hair and looked to be very muscular. As we both sat down as I got my bottled water out of my back pack with me taking me a drink of water. Sam just started talking as I was finding out that he was very nice a friendly man and a good man. We sat down on a log as Sam continued to talk about his wife passing away as he and our eyes were glued to each other as he put his big strong hand on my leg. I also felt my own cock tingle as I was getting very horny getting aroused and so was he. His conversation came to a stop as we started kissed passionately and I took my right hand feeling of his already hard cock which he had a rock hard cock in his pants as our mouths met each other as we slowing and passionately kissed on the lips as we started undressing each other. I could feel my own cock tingling as it needed some relief as Sam took his shoes shirt pants hat and underwear off as I did the same getting naked and ready to make love. He started passionately kissing me on my mouth and kissed me on the side of my neck as his hand played with my very erect nipples with him sucking on them as he was making me crazy sexually. I was naked as I grabbed his hard cock as took the head of his hard cock in my mouth as I was savoring the taste of his salty pre cum that was streaming out upon my tongue and mouth as he was he laid back on the grass. I looked at him in his eyes as we were looking at each other while I continued to suck on his cock and lick his balls. While I was sucking his big hard cock had me so turned on that my cock was with the big purple veins bulging out of my own shaft with me on my hands and knees as we were naked to the world in the grassy area. I took his hard*

*cock in my mouth sucking on the head as I tried to push it all the way down my throat and I was liking it because I had been craving to suck a hard cock to suck. I grabbed his hard member with my fist as he lay on his back by the base with one hand and played with his balls sucking them in my mouth with the other hand. I put the purple helmet of his shaft in my mouth sucking it as hard as I could while pumping it tightly and rapidly with my fist as he was starting to breathe faster. I continued to circle suck on the head of his cock as his breathing became quicker and quicker as he was going to cum. I sucked and pumped his cock until he grunted out loud with his cock twitching as he shot his creamy warm globs in my mouth shooting his load as he said "OMG, I'm Cumming, Fuck yes, Jesus yes" His warm cum shot out of the head of his cock in globs as I almost choking me as I tried to swallowed it all down as I circle sucked on the head of his twitching cock that was filling my mouth full of his wonderful warm semen. As his warm raw hairy cum was spurting several globs of cum with me swallowing it all down he was grunting. He was Cumming my mouth as I was circle sucking around the base of his head as I took my tongue and moved it from side to side underneath the tip of the head of his cock with me flicking his pee hole with my lips around the head of his cock. I continued to suck him off as hard as I could swallowing all of his load as he shot warm load after load of cum in my mouth five or six times with me drinking all of that good protein down with the both of us loving it. After he could no longer take it anymore I stopped and got beside of him I sat down upon that log on my butt and started stroking my own five inch hard cock as I was so turned on being naked on the outside that I started breathing more rapidly as my heart was beating faster and faster as I began to feel my orgasm near as I was sweating as I was laying on my back with as my balls tightened as my cock twitched as I said, "Oh My God Oh Jesus Fuck Yes, I'm Cumming, Fuck Shit yes" as the tip of my wonderful cock shot globs of warm cum all over my chest tits and neck and naked body until it stopped as I was gladly relieved myself. I looked over at Sam as he had already started putting his clothes back on and starting peeing as I was raking my own cum off of me with my fingers and eating it. I said "I want to thank you Sam for being here for me when I needed someone!" Sam said "likewise I enjoyed it was much as you did Joy." I put my panties shorts back on shoes and the rest of my clothes as I took a drink of water as I peed as Sam then he took a walk and so did I in the other direction as I felt wonderful as I walked on as I thought to myself there are nice people everywhere as I walked on.*
